Attention Fellow Commuters

The following is a true story....

- My clock radio rudely awakens me at 5:50am Monday to Friday.
- The time is now 6:10am and I have finally dragged myself into the shower.
- By 6:30am I have finished my shower and I am now downstairs making breakfast.
- It's now 7:00am, I have eaten my breakfast, made my lunch and I am ready to go to work.
- I leave home (Sanctuary Lakes) at exactly 7:00am.
- On a good day it takes me 30 minutes to drive to Laverton Station.
- On a bad day it can take up to 1 hour.
- Some days I am lucky enough to get a parking spot. Other days I'm not so lucky.
- When I can't get a parking spot I have no other option but to park my dream car that I bought brand new in the mud heap!!!!

Does the above story sound familiar? Do you want something done about this? Just for starters, maybe the Council/State Government should consider the following....

- Removal of the Level Crossing at Aircraft Station.
- Increase Car Parking capacity at Laverton Station by a further 750 spots.
- Duplication of Point Cook Road.

The only way to achieve the above is through PEOPLE POWER. If you are interested in assisting us, please visit our Website

www.pointcookactiongroup.org.au or, go to our Facebook page

www.facebook.com/PointCookActionGroup. You will find all the relevant details and more....

Note: We have a "Meet & Greet" coming up on Friday 23rd of March from 7pm till late at Gypsy Road, Shop 402a Main St, Point Cook Town Centre. As I said, go to our Web Site or Facebook page for full details. Hope to see you all there!!!!
